

MH series

High pressure washers with hot benefits

MH series gives you performance, long life-time and ergonomics

Innovative hot water pressure washer units with ergonomic and robust design

The MH series is equipped with our industrial pumps with 3-4 ceramic pistons and 4 pole motor. The machines are ideal for all hot water commercial and industrial cleaning tasks. Due to the EcoPower™ boiler they offer ideal and best in class efficient performance level for general hot water cleaning. Furthermore, the flow activated control system improves user comfort and handling as well as overall machine reliability.

Service and maintenance can be carried out quickly, as all vital parts are easy to inspect and reach. Also, the diagnostics function showed in the panel will give maintenance warnings to minimise any downtime.

The MH series concept ensures high mobility and easy transport across a wide variety of surface types thanks to the 4 large wheels and great balance.

- High efficiency 4 pole motors
- EcoPower™ boiler with EcoMode function
- Brass pump head
- Large inlet water filter protects pump against impurities
- 3-4 ceramic pistons
- Flow- or pressure activated unloader system
- Oil tank and oil level sight
- Low pump oil warning system
- Low fuel warning system
- Onboard diagnostics function
- Innovative design with 4 big wheels
- Easy to transport, can even be pushed/pulled across uneven surfaces

MH 3M optimal ergonomics, reliable cleaning

TECHNICAL DATA	MH 3M-100/600 PA UK
Pump pressure (bar/MPa)	100/10
Cleaning impact (kg/force)	2.4
Water flow Qmax/Qiec (l/h)	600/600
Pump (RPM)	1450
Water temperature (water/steam) (°C)	80
Max inlet temperature (°C)	40
Fuel consumption ΔT=45°C (kg/h)	2.7
Fuel tank (l)	15
Length x width x height (mm)	1010x700x1016
Weight (kg)	114
Power consumption (kW)	2.8
Voltage/phase/frequency/current (V~/HZ/A)	230/1/50/12.5
Ceramic Coated Pistons	3
El cable (m)	5
Nozzle size	.0450
Standard equipment	
Ergo coupling kit	101119496
Hose nozzle 20R3/4	61369
Ergo 2000 standard w. hose swivel	106403122
Universal Plus Lance 940 Bend w/o nozzle	106403036
Nozzle 0370 Inidcation ring bronze	101119737
Nozzle 0400 Inidcation ring metal grey	101119738
ITEM NO.	107146897

Optimal manoeuvrability

Optimal manoeuvrability and ease of transport – the new design with improved center of gravity, layout of parts and 4 large wheel design base improves manoeuvrability over all types of surface.

After years of studying the manoeuvrability of hot water cleaners across many different surface types and in many situations, a new, innovative wheel layout and other component bases allows the MH range to be easily pushed and pulled across all surface types on construction sites and in agriculture.

Transport functions are greatly improved, making movement of the products much easier:

- The 4 wheel design with large wheels, off-set to improve both ground clearance, balance and manoeuvrability in movement
- Indication of spaces under chassis for transport via forklift
- Fixation points for straps to secure the machine during transport in vans & trailers
